Oklahoma Quality Matters Workshop Opportunities
September – November 2016

There are two dedicated statewide Quality Matters workshops available. The workshops are online.

Improving Your Online Course (IYOC)

The "Improving Your Online Course" workshop explores the QM Rubric and provides a framework to improve the quality of online and blended courses. Participants use the QM Rubric to review their own courses and develop a course improvement plan.

Applying the QM Rubric (APPQMR)

The Applying the Quality Matters Rubric (APPQMR) workshop is QM's flagship workshop on the QM Rubric and the process of using the QM Rubric to review online courses. It is intended for a broad audience, including but not limited to faculty, instructional designers, administrators, and adjunct instructors who wish to understand more about the QM Rubric and process of course review. The APPQMR is the prerequisite for the Peer Reviewer Course, which is the required course to become a QM Peer Reviewer.
