Productivity Data Report

The Office of Accountability and Academics has prepared a Productivity Data Report for faculty and administrators to promote the analysis of degree program productivity. These data are particularly useful when writing self-studies as part of academic program review.

This document represents a significant revision and expansion of the first report of its kind issued during Spring 2009. This report will be updated and distributed annually. Departmental reorganization has influenced the organization and collection of data on a historical basis.

Applied Technology Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Business Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Communications Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

English & Humanities Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Fine Arts Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

History & Political Science Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Psychology, Sociology, and Criminal Justice Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Biology Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Health Sciences Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.
