Introduction

Campus Compact invites you to complete the annual member survey for 2015-2016. Conducted each year since 1986, Campus Compact's member survey is the most comprehensive and widely distributed review of community-based learning, community partnerships, and civic engagement in higher education. This instrument provides institutions, researchers, and higher education organizations with a powerful tool to capture curricular and co-curricular engagement, campus engagement infrastructure, and an array of other elements of higher education’s community engagement landscape.

Survey purposes

Your institution’s responses will be combined with those from the 1,100 campuses nationwide that comprise the Campus Compact network. Results allow campuses to compare their progress with state and national trends and help all of us better articulate our case to elected officials, funders, and the media. These results tell the story of Campus Compact members as educators of students for democratic participation and as anchor institutions in their communities. Naturally, the instrument’s power comes from widespread participation, so we are grateful to you for taking the time to complete it.

Campus Compact will use the data collected through the annual survey to report information to the public in the aggregate only. Both national and state/regional summaries may be utilized to educate others about the collective efforts of our membership.

In addition, you will be asked to identify two contacts who will receive copies of the institution’s responses in the spring, along with links to templates that allow comparisons with like institutions (e.g., four-year, historically minority-serving, faith-based, community college). State/regional Compacts receive responses for institutions in their region to inform professional development and services they can provide to members.
2016 Membership Survey

With this iteration of the Campus Compact Membership Survey we return to the process of alternating questions annually. The data we gather will be useful for practitioners and researchers, and our members will find that the process of responding gives them a head start in data collection for other institutional and national purposes.

We are grateful to the following people for their contributions as members of a committee dedicated to this effort:

- Matthew Hartley, committee chair, Associate Professor in the Graduate School of Education and Director of the Alliance for Higher Education and Democracy at the University of Pennsylvania
- Adrienne Falcon, Director of Academic Civic Engagement and Lecturer in Sociology at Carleton College
- Robert Reason, Professor, Student Affairs and Higher Education Program in the School of Education and Associate Director of Research and Administration at Iowa State University
- Debby Scire, Executive Director, Campus Compact for New Hampshire
- Nancy Thomas, Director, CIRCLE’s Initiative for the Study of Higher Education and Public Life and Campus Counts, Jonathan M. Tisch College of Citizenship and Public Service at Tufts University
- Laurie Worrall, Executive Director, New York Campus Compact

Guidelines

- Please ensure that only one survey is completed for your institution.
- All data reported in the survey should reflect the 2015-16 Academic Year.
- Multiple offices will need to provide data for the most accurate campus portrait. Specifically, we suggest you include those involved in student and academic affairs, Institutional Research, and the registrar -- as well as any others you know who have key roles in facilitating your institution’s community engagement.
- The survey is to be completed online. You can save, exit, and return as needed using your institution’s unique survey link. We recommend preparing your submission using this PDF.
- We recommend that you review questions before starting, gathering information needed from other institutional offices and/or committees. You can print a shareable copy of these survey questions.
- You can change an answer by returning to an item already completed and entering a different response -- but only prior to hitting the "submit" button.
- Once you select the "submit" button on the last page, you will not be able to edit or return.
- When responding to questions about students, please include data for all students -- graduate and undergraduate -- at your institution.
- Basic characteristics of your institution will be pulled from the Integrated
Postsecondary Education System (IPEDS) and integrated into your institution’s survey data.

● You may want to begin by reviewing the Frequently Asked Questions (FAQs), available on Campus Compact’s website.

● The survey site will be open between September 28 and November 23, 2016, and is accessible via this link. Please start early so that you will have time to gather the information requested.

● If you gather all information prior to starting the survey, it should take no more than 60 minutes to complete.

Terms and definitions

For a list of definitions used in this survey, please refer to the Frequently Asked Questions.

Benefits to your Institution

In addition to providing the opportunity for aggregating national data and comparing across institutions, the annual survey provides a mechanism for campus-based information gathering that supports subsequent applications for the Carnegie Classification for Community Engagement and/or the President’s Higher Education Community Service Honor Roll and enables evaluation of campus community engagement efforts. The information collected may be useful as you prepare your annual report or communicate internally about institutional community engagement strategies, outcomes, and impact.

If you have any questions, contact Maggie Grove, Vice President for Strategy and Operations, at Campus Compact – mgrove@compact.org. We thank you for your participation and look forward to sharing results with members in spring 2017.
