Dear Prospective Student:

Thank you for inquiring about the Associate Degree Nursing Program Bridge option at Rogers State University. This program offers an advanced placement opportunity for paramedics and licensed practical nurses to advance in the nursing curriculum. This nursing program leads to Registered Nurse licensure and is one of the finest in the United States. The first nursing courses Paramedic and LPNs take (NURS 1433 Bridge to Registered Nursing) is offered on the Rogers State University Bartlesville Campus during the last two weeks of July. The remaining sophomore level nursing courses are offered on both campuses – RSU Claremore and RSU Bartlesville campuses. Students may elect to complete their nursing courses on either campus.

If you are a first time entering college student, a transfer student, or a re-entering Rogers State University student, contact the Office of Enrollment Management to apply for admission or re-admission. You can apply for admission at any of our three campuses, Markham Hall on Claremore Campus, Pryor, or Bartlesville. It is important to bring your scholastic records with you. Important records include:

- High school transcript with graduation date or GED
- ACT or SAT scores
- Other college or university transcripts

If you need additional information on the application process, the Office of Enrollment Management can be contacted at 918-343-7546.

After admission to the University, you will be scheduled for an advisement appointment with either an advisor in the Office of Enrollment Management or a nursing faculty advisor to enroll in courses.

The Oklahoma Nurse Practice Act has specific rules concerning eligibility for candidacy. Candidates must submit to the Oklahoma Board of Nursing “certified written evidence” of no criminal convictions in the United States within the past five years. Please consult the enclosed flyer for further information.

You are encouraged toward your goal of becoming a Registered Nurse and we are here to help you obtain your educational goals. If you have any questions or need additional information, please feel free to call (918)-343-7635

Again, thank you for your interest. We look forward to hearing from you.

Sincerely,

The Nursing Faculty
