

# ENTRY-LEVEL ASSESSMENT THROUGH FALL 2009

February 2011

---

ROGERS STATE UNIVERSITY  
Claremore, Oklahoma

---

Office of Institutional Research,  
Planning, and Assessment

**Entry-Level Assessment Through Fall 2009**  
**Prepared by**  
**Institutional Research, Planning and Assessment**  
 Michelle Canan, Research Analyst

**Entry-level Assessment**

The purpose of entry-level assessment at Rogers State University (RSU) is to analyze the college preparedness of all new students – first-time freshmen as well as transfer students. All students admitted to Rogers State University are required to participate in a variety of assessment activities. RSU provides a program of basic skills testing and several developmental courses that are designed to help students enhance their proficiency in the basic skill areas of English, mathematics, reading, and science. Students required to enroll in these courses will ultimately benefit by having stronger skills in these important academic abilities.

**Curricular Proficiency Model**

Developmental coursework may be required when a first-time freshman has the following sub-scores on the ACT:  
 ACT in English below 19  
 ACT in math below 19  
 ACT in reading below 19  
 ACT in science below 19

Students who do not meet the cutscore of 19 on each ACT subtest are referred for secondary testing. The ACT COMPASS is the secondary test for English, reading and mathematics, and the Stanford Test of Academic Skills – Science (STASS) is the secondary test for science. With the exception of the STASS test, students who do not pass secondary testing on the first attempt may retake the test one time after a one-week waiting period. Developmental courses must be completed within the first 24 semester hours attempted for first-time freshmen (12 semester hours for transfer students); otherwise, future enrollments by the student will be limited to only the required zero-level courses until successful completion. A grade of "C" or higher is required to clear a developmental course requirement. *Table 1: Curricular Proficiency Model* provides a visual representation of the entry-level assessment plan at Rogers State University

During fall 2009, all entering students were evaluated on the basis of ACT scores, secondary testing, or prior coursework. During that period, 731 academically deficient students accounted for 1031 enrollments in courses, as follows: Basic Writing (215), Reading I (121), Science Proficiency (65), and Algebra (630).

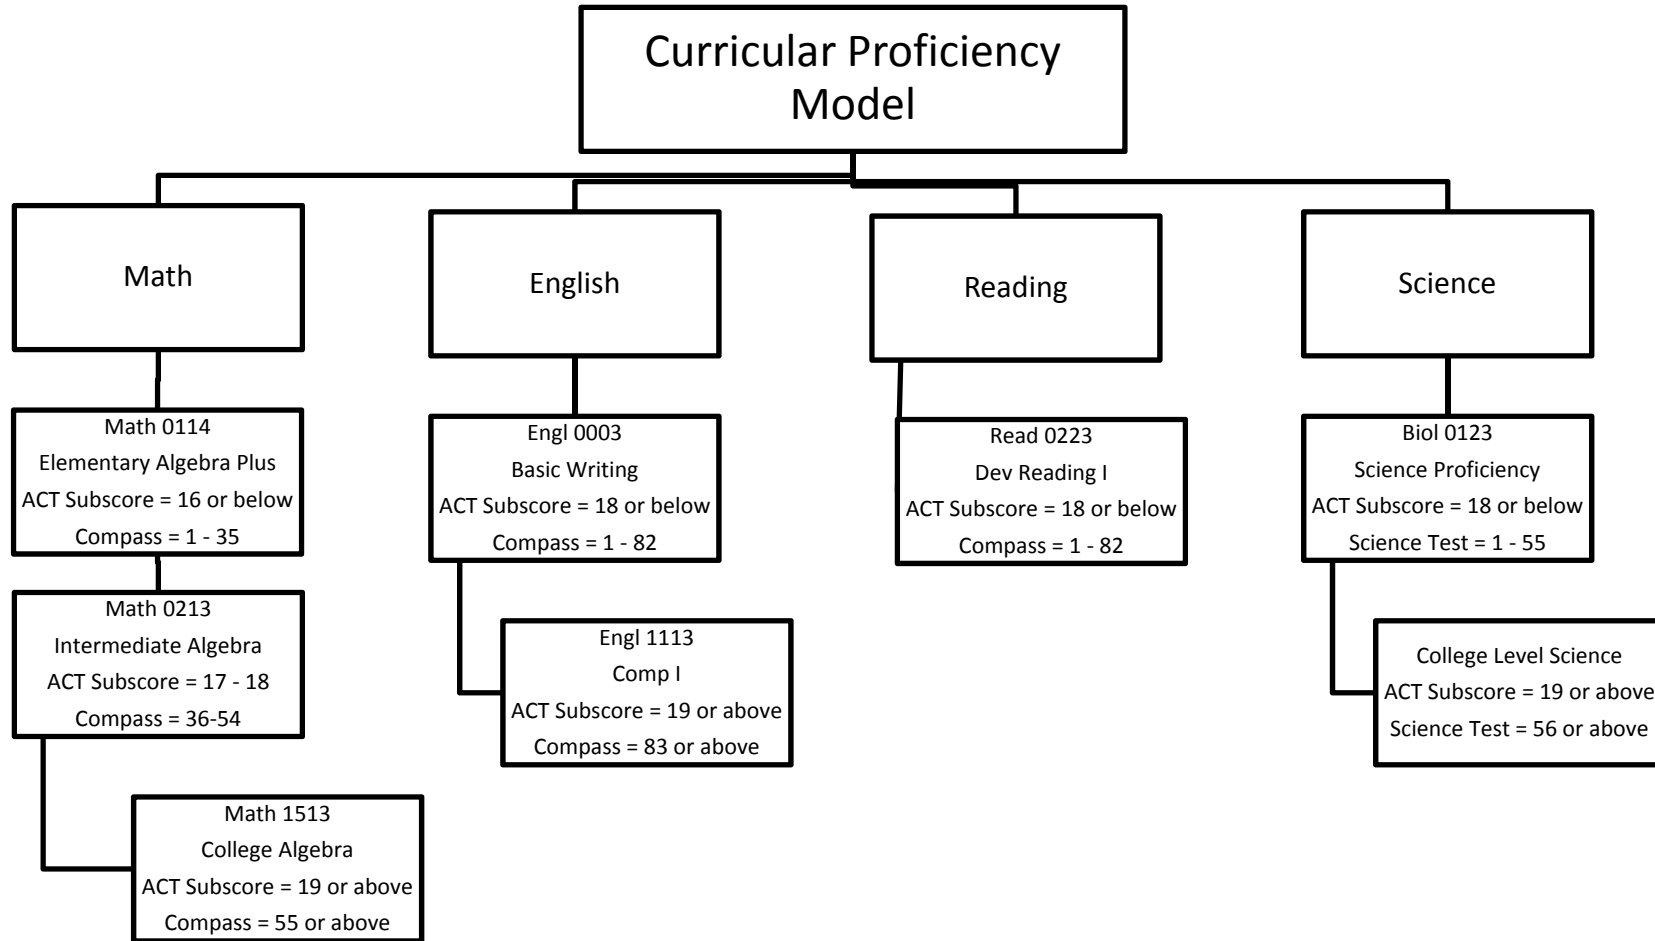

**Student Success Rates in College-Level Coursework**

RSU tracks performance in college-level coursework of students who have completed developmental courses. Success rates in math, English, reading and science are presented in Tables 2, 3, 4 and 5 respectively. To clarify, *Table 2: Success Rates of Math Deficient Students* provides tracking data demonstrating successful or unsuccessful academic performance by student headcount in MATH 0114 Elementary Algebra and MATH 0213 Intermediate Algebra. Student achievement is tracked over a three year period in order to examine the performance of those placed in MATH 0114, a prerequisite to MATH 0213, which is a prerequisite to MATH 1513 College Algebra or MATH 1503 Mathematics for Critical Thinking. By comparison, a description is provided of the academic performance of students placed directly into MATH 1513 or MATH 1503 based on the ACT, COMPASS and other method (transfer course, etc.).

The vertical numbers in each box of the flowchart represent percentages of successful and unsuccessful student performance. The three columns represent the fall semesters of 2007, 2008 and 2009. The headcount (number) of students is found in the parentheses at the bottom of the column. Successful performance is defined as course grades of A, B or C. Unsuccessful performance is defined as D, F, I or W. Withdrawal percentages are extracted from the whole.

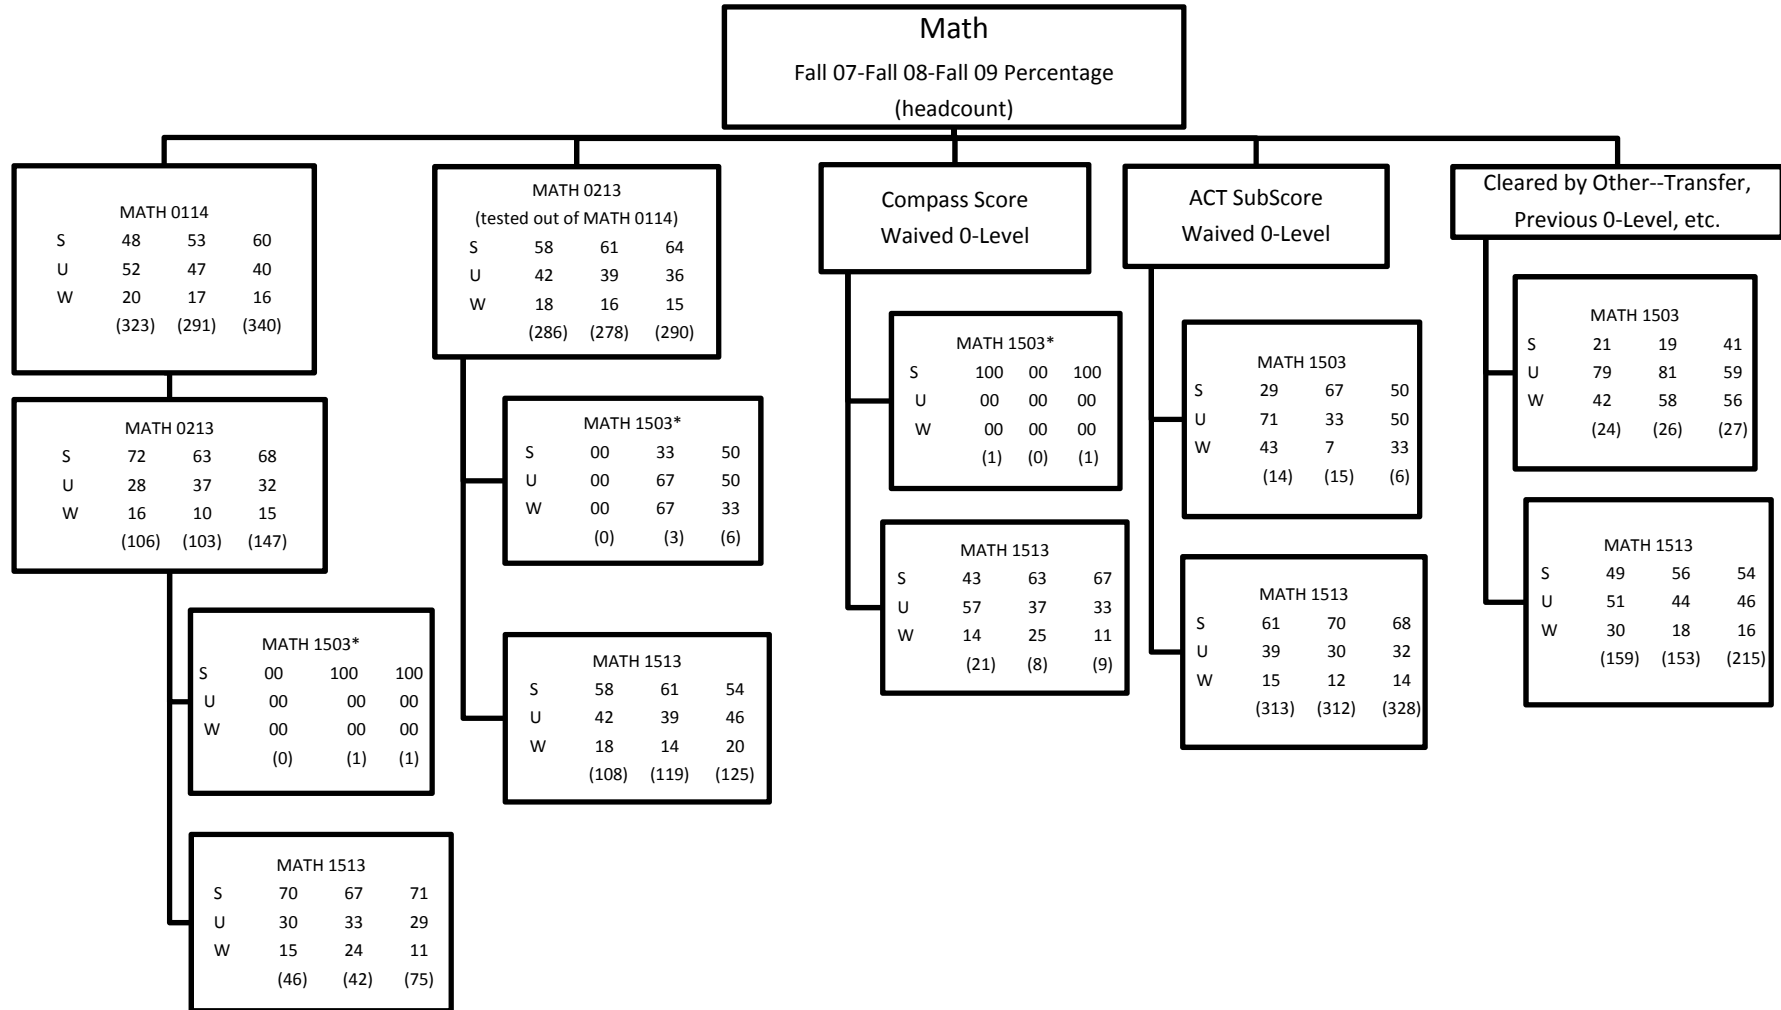

*Table 6: Success Rates in Detail* amplify the previous tables to provide information about student cohorts who enrolled in the specified courses for the fall semesters of 2004-2009. For example, 340 students enrolled in MATH 0114 during the fall 2009 semester. Of the 340 students, 204 (60%) earned the grade of A, B or C, which are consider "successful". Unsuccessful performance, as defined as D, F, W or I, was earned by 136 (40%). Of the successful cohort of 204 students, 147 enrolled in MATH 0213 for the spring 2010 semester. Sixty-eight percent (68%) out of 147 students were successful. Of the 100 students remaining in the successful cohort group, 75 students enrolled MATH 1513 College Algebra during the summer 2010 or fall 2010 semester. In summary, 53 students out of the original cohort of 340 successfully completed MATH 1513. This tracking model does not include students who "stopped out" of the curricular area, e.g., math.

Table 1: Curricular Proficiency Model

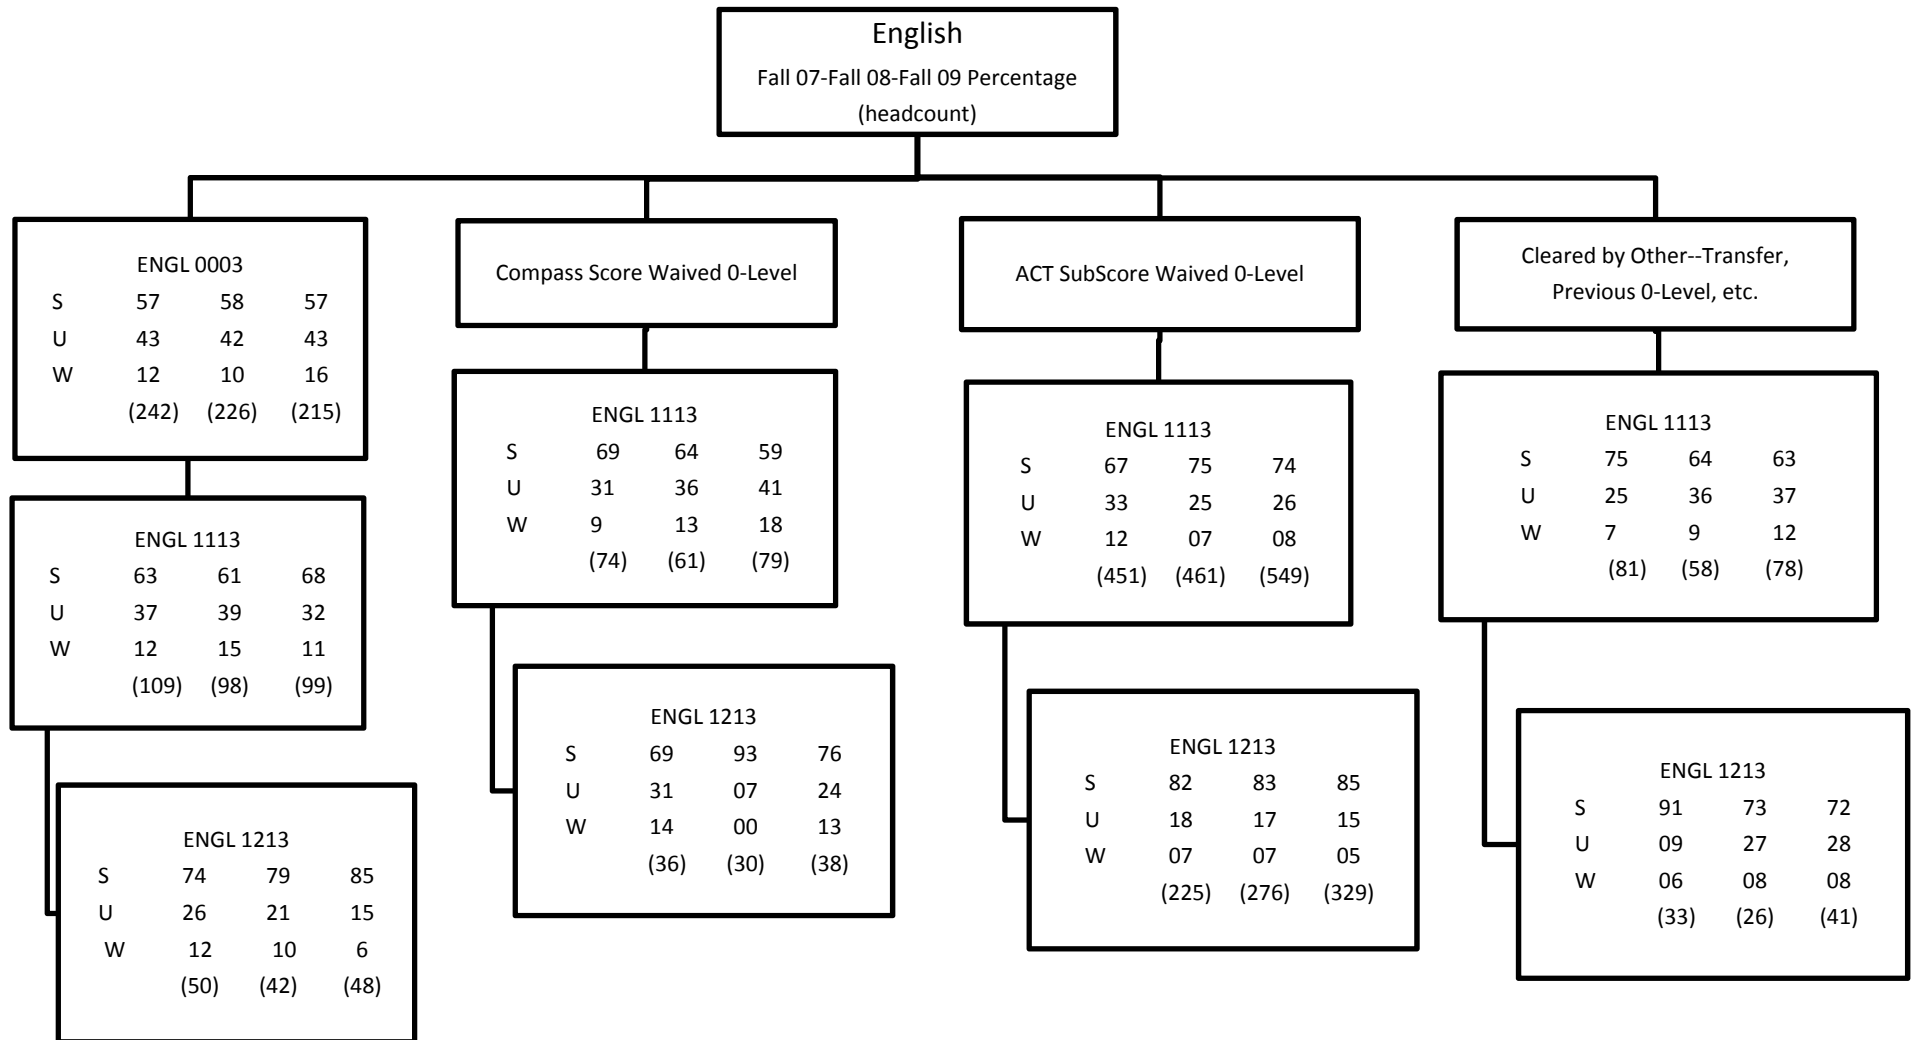

- Proficiency established within 24 hours or 12 hours if transfer.
- Intermediate Algebra is prerequisite for MATH 1503, 1513, or PHYS 1014.

Table 2: Success Rates of Math Deficient Students

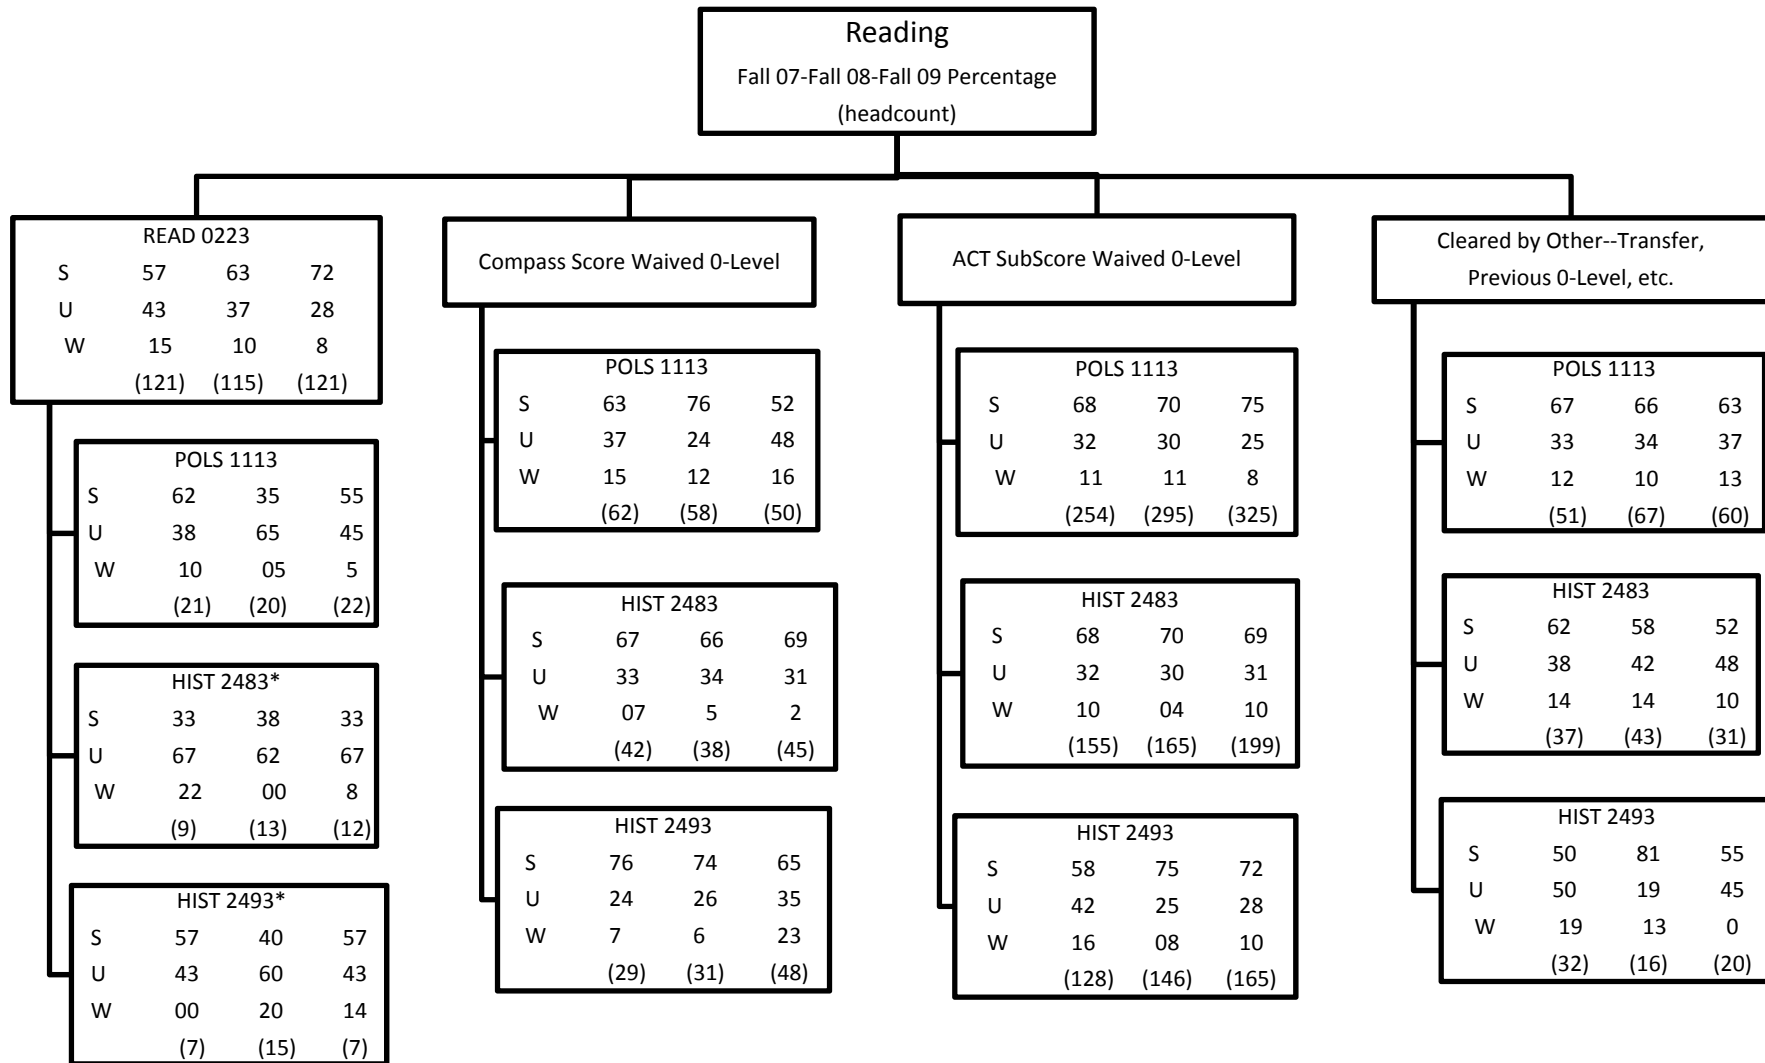

\*Low Bases  
 S = Successful (A, B, or C)  
 U = Unsuccessful (D, F, I or W)  
 W = Withdrawal

Table 3: Success Rates of English Deficient Students

\*Low Bases  
 S = Successful (A, B, or C)  
 U = Unsuccessful (D, F, I or W)  
 W = Withdrawal

Table 4: Success Rates of Reading Deficient Students

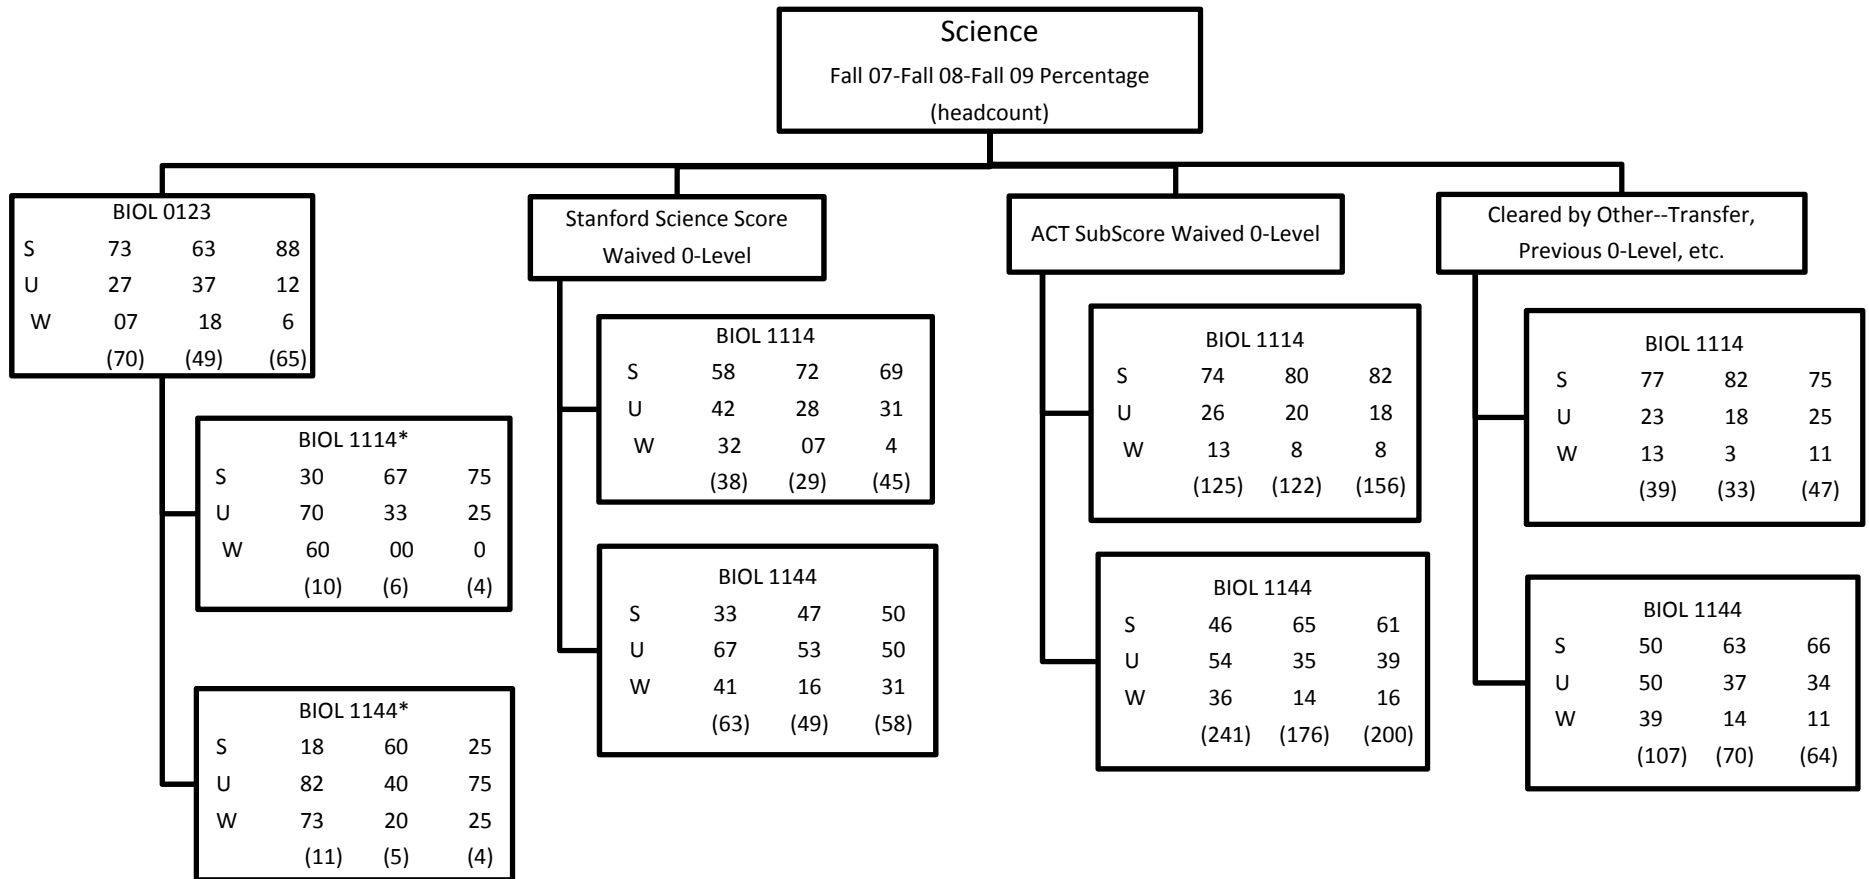

\*Low Bases

S = Successful (A, B, or C)

U = Unsuccessful (D, F, I or W)

W = Withdrawal

Table 5: Success Rates of Science Deficient Students

\*Low Bases  
 S = Successful (A, B, or C)  
 U = Unsuccessful (D, F, I or W)  
 W = Withdrawal

Table 6: Success Rates in Detail
