Productivity Data Report

Prepared by
Michelle Canan
Research Analyst
Office of Accountability and Academics

The Office of Accountability and Academics has prepared a Productivity Data Report for faculty and administrators to promote the analysis of degree program productivity. These data are particularly useful when writing self-studies as part of academic program review.

This document represents a significant revision and expansion of the first report of its kind issued during Spring 2009. This report will be updated and distributed annually. Departmental reorganization has influenced the organization and collection of data on a historical basis.

Applied Technology Department

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Business Department

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

*Beginning Fall 2008, excludes multiple sections of cross-listed or compressed video courses.

COURSES

COURSE	Course Department and Number
TITLE	Title
DIVISION	Division
FALL_COUNT	Number of Fall sections offered
FALL_ENR	Total enrolled in all Fall sections offered
FALL_CHRS	Total credithours in all Fall sections offered
FALL_SCH	Total student credit hours for all Fall sections offered
SPR_COUNT	Number of Spring sections offered
SPR_ENR	Total enrolled in all Spring sections offered
SPR_CHRS	Total credithours in all Spring sections offered
SPR_SCH	Total student credit hours for all Spring sections offered
YEAR_ENR	Total enrolled for Fall and Spring
YEAR_SCH	Total student credit hours for Fall and Spring

Communications Department

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

History & Political Science Department

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Psychology, Sociology, and Criminal Justice Department
Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

*Beginning Fall 2008, excludes multiple sections of cross-listed or compressed video courses.

COURSES

COURSE	Course Department and Number
TITLE	Title
DIVISION	Division
FALL_COUNT	Number of Fall sections offered
FALL_ENR	Total enrolled in all Fall sections offered
FALL_CHRS	Total credithours in all Fall sections offered
FALL_SCH	Total student credit hours for all Fall sections offered
SPR_COUNT	Number of Spring sections offered
SPR_ENR	Total enrolled in all Spring sections offered
SPR_CHRS	Total credithours in all Spring sections offered
SPR_SCH	Total student credit hours for all Spring sections offered
YEAR_ENR	Total enrolled for Fall and Spring
YEAR_SCH	Total student credit hours for Fall and Spring

Biology Department

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.

Math and Physical Sciences Department

Average Hours and GPA

The following averages are based on the number of students enrolled for a specified semester excluding cooperative agreement (technology center) enrollments and complete withdrawals. The "Retention/Cumulative" data are based on all credit hours attempted or earned. Data are organized by degree program not individual departmental courses. Attempted hours include the grades of A, B, C, D, F, I, N, P, NP, W, AW; hours for remedial courses; and, in some cases, repeated course hours. Earned hours include college-level courses with the grades of A, B, C, D, or P; and exclude, in some cases, repeated course hours . The retention GPA is based on forgiven and repeated courses. The cumulative GPA includes all academic work. See page 35 of the Bulletin for more grade information and page 36 for repeated course information.
