

Welcome to Rogers State University!

Thank you for inquiring about Rogers State University's Bachelor of Science in Nursing RN-to-BSN Degree! The bachelor's degree for RNs is designed especially for you, an RN who has completed an associate degree or diploma program. Congratulations on taking the next step toward becoming a more effective clinician and leader in nursing and healthcare.

As a working professional you have many options to attain a bachelor's degree. You may elect to attend the BS/N program full-time or part-time. Required courses and electives may be taken concurrently or in later semesters after you have completed the nursing courses. Admission requirements, nursing course descriptions, the plan of study, and an application are enclosed in this packet.

If you are a first time student at Rogers State University or a re-entering RSU student, you must first contact the Office of Enrollment Management to apply for admission or readmission to RSU. You can [apply for admission online](#) or at any of our three campuses, in Markham Hall on the Claremore campus, or at the Pryor or Bartlesville campus. It is important to bring with you your college or university transcripts, especially if you have never attended RSU. If you need additional information on the application process to the university, contact the Office of Enrollment Management at 918-343-7546. For an evaluation of a transfer transcript, schedule an appointment with Brandi Mulanax at 918-343-7608.

For general information about the RN-to-BSN program, contact the Department of Health Sciences at 918-343-7635 or visit the [RSU Nursing Website](#). For specifics about the bachelor's curriculum, please contact Teri Bycroft, EdD, MS, RN at 918-343-7585; or Marla Smith, PhD, RN at 918-343-6887.

Once you have been accepted into the program you must provide documentation of professional liability insurance coverage with limits of \$1,000,000/incident and \$3,000,000 aggregate. For a list of agencies that provide professional liability insurance coverage to individuals (RNs), check the RSU Nursing website or contact our office.

I am confident that the program can meet both your educational and professional needs. Thank you for your interest and I look forward to hearing from you.

Respectfully,

Lynn Korvick, PhD, MS, RN, CNE
Department Head, Health Sciences and Associate Professor
