

Degree Program Student Learning Report (rev. 7/14)

Fall 2014 – Spring 2015

The Department of Psychology, Sociology & Criminal Justice in the School of Liberal Arts

Community Counseling, B.S.

Effectively assessing a degree program should address a number of factors:

- 1) Valid student learning outcomes should be clearly articulated;
- 2) Valid assessment measures should be used, consistent with the standards of professional practice;
- 3) There should be evidence that assessment data are being used by faculty to make necessary instructional or assessment changes; and there should be evidence that instructional or assessment changes are being implemented to improve student learning.

PART 1 (A & B)

Relationship of Degree Program Learning Outcomes to Departmental and University Missions

A. Clearly state the school, department and degree program missions.

University Mission	School Mission	Department Mission	Degree Program Mission
Our mission is to ensure students develop the skills and knowledge required to achieve professional and personal goals in dynamic local and global communities.	The mission of the School of Liberal Arts is to further the study and practice of the arts, humanities, and social sciences at Rogers State University, in the community, and in the region. PART 2

Discussion of Instructional Changes Resulting from 2014-2015 Degree Program Student Learning Report

List and discuss all instructional or assessment changes proposed in Part 5 of last year's Degree Program Student Learning Report, whether implemented or not. Any other changes or assessment activities from last year, but not mentioned in last year's report, should be discussed here as well. Emphasis should be placed on student learning and considerations such as course improvements, the assessment process, and the budget. If no changes were planned or implemented, simply state "No changes were planned or implemented."

Instructional or Assessment Changes	Changes Implemented (Y/N)	Impact of Changes on Degree Program Curriculum or Budget

PART 3

Discussion About the University Assessment Committee's 2014-2015 Peer Review Report

The University Assessment Committee in its Degree Program Peer Review Report provided feedback and recommendations for improvement in assessment. List or accurately summarize all feedback and recommendations from the committee, and state whether they were implemented or will be implemented at a future date. If they were not or will not be implemented, please explain why. If no changes were recommended last year, simply state "No changes were recommended."

Feedback and Recommended Changes from the University Assessment Committee	Suggestions Implemented (Y/N)	Changes that Were or Will Be Implemented, or Rationale for Changes that Were Not Implemented
Part 4. 1. Since about 90% of students scored at least 70% on the five exams, what do you think about the idea of raising the standard?	N	This is the first year that all performance standards were met. It is too soon to raise the bar as for just meeting it for the first time.
Part 4. 3. Why is 100% the standard for the measure of the second SLO (this is actually third SLO)?	N/A	Ethics are at the heart of the counseling profession.
Part 4. 5. How do you measure focus group responses?	N/A	Focus groups are no longer used and were replaced with graduating seniors' surveys.
Part 2. The last comment in Part 2 states that better preparation of adjunct faculty is an area the department	N	When a coordinate is assigned or hired, this issue will be addressed.

<p>would like to see improved. Please discuss how this effort is proceeding when we meet for the peer review session.</p>		
<p>Part 3. Regarding a couple of comments in Part 3, there is some lack of clarity. The second comment (p. 6) does not indicate whether you are still doing both focus groups and surveys or just surveys. The sixth comment (p. 6) never mentions data collection method, which was the question.</p>	N/A	<p>The last sentence states "As assessment data for the other programs already was being collected using the survey method, this appeared to be the best method." In our opinion, this suggested clearly that we switched exclusively to the survey method. The sixth comment explains how the data collection method was changed to a modular system to specifically address the core counseling theories.</p>
<p>Part 5. 1. Regarding the comment on the impact related to the first SLO in Part 5 (p. 11), how is the competence score "increasing" if you are going from 100% (bottom of page 8) to 80% listed here?</p>	N/A	<p>The original performance standard was "100% of students will achieve a competent score equal to or greater than 70% on Ethics written assignment." The comment on p. 11 demonstrates the implemented change to 100% of students will achieve a competent score equal to or greater than 80% on Ethics written assignment.</p>
<p>Part 5. 2. According to the comment related to the second SLO in Part 5 (p. 11), service learning will no longer be a part of the Community Counseling Capstone course. When staff permits, will it be continued?</p>	?	<p>Unknown. When a coordinator is assigned or hired, this issue will be addressed.</p>

PART 4

Analysis of Evidence of Student Learning Outcomes

For all student learning outcomes (as listed in Part 1 B above), describe the assessment measures and performance standards used, as well as the sampling methods and sample sizes. For each measure, document the results of the activity measured and draw relevant conclusions related to strengths and weaknesses of their performance.

PART 5

Proposed Instructional Changes Based on Conclusions Drawn from Evidence Presented Above

State any proposed instructional or assessment changes to be implemented for the next academic year. They should be based on conclusions reported in Part 4 (above) or on informal activities, such as faculty meetings and discussions, conferences, pilot projects, textbook adoption, new course proposals, curriculum modifications, etc. Explain the rationale for these changes and how they will impact student learning and other considerations, such as curriculum, degree plan, assessment process, or budget. If no changes are planned, simply state "No changes are planned."
