

COLLEGE OUTCOMES SURVEY

May 2012

ROGERS STATE UNIVERSITY

Claremore, Oklahoma

Office of Accountability and Academics

College Outcomes Survey

Rogers State University is committed to improving its services to students and departments. To this end, RSU seeks information from its graduates regarding their college experience. The *ACT College Outcomes Survey*¹ was selected in 2010 to assess the importance of, progress toward, and university contribution to a variety of college outcomes. Additionally, student satisfaction with university programs and services was assessed, evaluating student perceptions in the following areas:

- Importance to attain outcomes
- Progress made toward attaining outcomes
- Views of required courses outside of major
- Agreement with statements about this college
- Personal growth since entering college
- College contribution to growth

Methodology

Surveys were mailed to 624 students applying for graduation during 2011-2012. A letter from the Registrar's Office accompanied the survey to inform impending graduates of RSU graduation requirements and protocols. A total of 184 surveys was returned for a 29% response rate. Participation was voluntary with no compensation.

Survey respondents were representative of the larger RSU impending graduate population in terms of gender, ethnicity, and race. Seventy percent of respondents were female, compared to 66% of females in the impending graduate population. Three percent of respondents were of Hispanic ethnicity with 3% of impending graduates reporting Hispanic ethnicity. Caucasian respondents (74%) and Native American respondents (19%) represented 93% of all respondents. African American respondents (2%) also paralleled the graduate population.

Nearly half (46%) of respondents were under age 25 compared to 38% of the graduate population in this age range. Higher participation rates among younger respondents also resulted in the *College Outcomes Survey* normative results. A total of 46% of graduates completed a Bachelor's degree and 37% were completing an Associate degree, with 17% ultimately not completing their degree during the period. Nearly one-quarter (24%) of respondents planned to re-enroll at RSU in the next academic year. In addition to the 17% continuing enrollment to complete degree requirements, student persistence was also due to Associate degree-seeking students who continued on in baccalaureate programs. These students were represented among the participants as well.

24	84	13.5%
25 to 29	156	25.0%
30 to 39	131	21.0%
40 to 49	59	9.5%
50 to 59	35	5.6%
60 or Over	5	0.8%
Blank	0	0.0%
Total	624	100.0%
DEGREE AWARDED	Number	Percent
Baccalaureate	289	46.3%
Associate in Arts or Science	147	23.6%
Associate in Applied Science	82	13.1%
Not Awarded This Period	106	17.0%
Total	624	100.0%

Findings

Mean item scores were reported for RSU, and national norms were provided as a benchmark. All items were rated on a five-point Likert-type scale with “5” representing strongest positive affect and “1” representing strongest negative affect. Data are summarized in the accompanying report presenting the top five and bottom five items for RSU in each of the six scale dimensions. Further, satisfaction with individual aspects of the institution are highlighted using an item gap analysis.

Comparing student perceptions of *progress toward attaining outcomes* with national norms, RSU’s top five items ranged from 3.92 to 4.04. These items include:

- #3. Learning to think and reason
- #15. Becoming competent in my major
- #14. Acquiring knowledge and skills needed for a career
- #2. Developing problem-solving skills
- #7. Improving my writing skills

Only one RSU item mean was at or below the mid-point of 3.0 (neutral opinion). The five items with the lowest means ranged from 2.98 to 3.35. These items are as follows:

- #23. Learning principles for conserving/improving the global environment
- #19. Learning principles for improving physical/mental health
- #26. Understanding/applying math concepts/statistical reasoning
- #16. Appreciating the fine arts/music/literature/humanities
- #18. Discovering productive/rewarding uses of my talents/leisure time

In analyzing item gaps between RSU and national norms, the largest positive differences are as follows:

Item #	Item	RSU Average	National Norms Average	Difference
#20	College response to nontraditional students	4.10	3.86	.23
#21	Rules governing student conduct	3.88	3.67	.21
#19	Personal security/safety on campus	3.96	3.77	.19
#16	Student health/wellness services	3.79	3.60	.19
#36	Library/learning resources center services	4.11	3.93	.17

Alternatively, the largest negative differences between RSU and national norms are:

Item #	Item	RSU Average	National Norms Average	Difference
#7	Quality of academic advising	3.58	3.85	-.27
#31	New student orientation services	3.55	3.78	-.23
#29	Job placement services	3.23	3.46	-.23
#15	Language development services for students whose first language is NOT English	3.34	3.52	-.18
#3	Availability of faculty for office appointments	3.87	4.03	-.16

High agreement was also achieved for the following items, suggesting strong alignment with the University mission:

- #8. I am proud of my accomplishments at this college.
- #5. This college is equally supportive of women and men.
- #1. This college has helped me meet the goals I came here to achieve.
- #7. This college is equally supportive of all racial/ethnic groups.
- #4. I would recommend this college to others.

Results indicate that RSU students believe they have made progress toward attaining their college goals, have positive perceptions of the required courses outside of their majors, have experienced personal growth since entering RSU, are proud of their accomplishments at RSU, and would recommend the University to others. These results will be used to inform faculty, staff and administrators in strategic planning activities in academic and non-academic services.

College Outcomes Survey (4-Year) Graphics Report

For

ROGERS STATE UNIVERSITY

Prepared by ACT Survey Research Services

08/17/12

This report contains pie charts and bar graphs for selected items for your college and for a national normative sample. For all Likert scale items (e.g., 5-point Satisfaction scale), data are displayed for your institution's top and bottom five items as well as the five items with the greatest and least differences for your institution in comparison with national normative data. Please note percentages may not add to 100 due to the effect of rounding.

The "National Norms" used in this report are based on 20,382 student records from 38 4-year postsecondary institutions that administered the ACT College Outcomes Survey between July 1, 2005 and June 30, 2010. Normative data of this type are often referred to as "user norms" because they simply represent a composite of the data obtained by a number of institutions that administered the instrument during a particular period of time. See the "Normative Data Report" for the College Outcomes Survey for more information concerning the nature of the national norms sample.
