27. What do you want to tell the University or Department that this survey did not ask of you?

I think that the Biology department at Rogers State University is fantastic. I had nothing but good experiences within the

- department. I liked the accessibility that all of the professors welcomed, and the amount of help they were willing to give to students who worked hard and reached out. I have nothing bad to say about anything biology related. I especially enjoyed dealing with Mrs. Claudia Glass, she made my final years of college very enjoyable, and was a great advisor, mentor, and friend. Jerry Bowen, Don Glass, Keith Martin, and Craig Zimmermann were all great professors to deal with as well.

  2. Qualified research mentors to oversee human research opportunities.
  3. The depts should warn a student about the capstone and preparing for it.
  4. I am really impressed with the online program. I wish all of the classes I need to take for the HR option were online. It really makes working and earning your degree possible.  
I just think it could improve on the advisory part. I spent my first year and half not knowing I was supposed to have the same person to help me choose. And in turn I ended up having to go an extra year to get a degree. I think with more communication to student This could be avoided. I know if others that are facing the same thing.

  6. nothing  
The only disappointing factor of my Senior year is that I had a professor who was very bad about not grading our work.
  7. We had no idea if we were doing ok or not. It was very unprofessional. Considering that most of my classes are full of working adults we would expect more of a professional attitude.  
Sports are not bad in and of themselves, but be careful not to neglect monetary investment into each of the academic schools, particularly the Liberal Arts schools. Nursing, Business, and Science give students practical skills, and sports bring in the money, but it is the Liberal Arts that show students what it means to be human and how to be better individuals and contributors to society. And that has a much bigger, longer-lasting impact than any sport.

  12. The writing center is one of the best resources on campus and questions should be asked regarding this resource. Dr. Beam does such a good job at promoting the writing center and is amazing at helping students learn to write better.  
I think there should be e-mails sent to new students early on in their careers about different things that go on around the university during the year. Also I think clubs and organizations should all send out an e-mail to new students saying why they should join their organization and benefits that could come from it. I do not think the tent at the beginning of the year is enough for the students.

  14. The university as a whole still needs to be more available to online students beyond an 8 am to 5 pm time frame. I have had to take off work to go to the registrar office or call the library for assistance.
  15. Dr. Newcomb in the Sociology department was the most enlightening and helpful of all professors
  16. I would like to tell you that online classes are great for people like me with full time jobs, the only exception is that some teachers require proctored exams, which is extremely difficult as a full time mom and have a full time job.  
I would like to have been more prepared for submitting graduate school applications, such as writing a biographical statement, and statements of intent. Interview strategies. Many of us in this major have discussed how a one unit class on preparing for graduate school would have helped us immensely. Not everyone intuitively knows how to do it and the advisors cannot help everyone on an individual basis as their workload does not permit it.

I had some very negative experiences with several professors throughout my degree. Certainly, there were very responsive, professional ones as well which is why I did not rate lower on this survey. But some were condescending, difficult to reach, and almost seemed to have a desire to be obstructive toward students success. I investigated transferring schools twice because of this, but stayed because I was already too committed in the number of credits needed to graduate.

My time at RSU was an amazing experience and I will never forget it. I would like to mention a few professors who constantly helped me anytime I needed it. Dr. Woller and Mr. Watters were a huge part of my success at RSU. There are so many professors I had classes with that impacted my life, but these two helped me the most.

Dr. Woller and Mr. Watters were a huge part of my success at RSU. There are so many professors I had classes with that impacted my life, but these two helped me the most.
  20. What did you like about your degree?

21. I have had some really bad professors, but some really good ones as well, it evens out the experience. The only motivation I kept was wanting to graduate, I would not choose to do it again.
22. did you receive sufficient experience with Excel or other software. answer is NO. the microcomputer class focused mainly on WORD. I see many job posting requiring experience with EXCEL
- The university undervalues the liberal arts department. As a student I feel that while we are expected to have a high level of achievement the University focuses on other disciplines more often and it is unfair. Our department is sending 8 more RSU grads to grad school and we have numerous research projects being conducted. RSU should value this department more than it currently does.
23. I disagree with the amount of money that we had to use in our meal plan in order to live on campus. I also do not think that some of the staff members in the cafeteria should be working at a school as their actions are somewhat inappropriate. However a few of the staff members in the cafeteria are wonderful. I do not like that we have to put separate money on our student ID for the laundry room and the CC cafeteria. This adds up to a lot of money as if school wasn't expensive enough in the first place. Overall I did get a good experience from RSU and I would recommend it to anyone.
24. N/A
- Those interested in Grad school should have better prep and help with the application experience. Also, review of curriculum in psych courses. Some of the 2000 and 3000 level courses could have easily been a 4000 level course because of difficulty. The same goes with 4000 level courses being too easy.
25. Nothing.
26. None
27. Just that one of the teachers in the Fine Arts department needs a clearer grading scale, because it feel like grades come out of nowhere. They do, since not a thing is graded all semester.
28. Department of History and Political Science is great. Everyone was helpful and approachable. Best Department on campus!
- If a student has an academic adviser and that person leaves, the student needs to know that. I had Cliff Layton for my adviser and it still shows he is my adviser and he doesn't even work at RSU anymore. Also it is important that the adviser checks in with the student to make sure they are on track for their degree. He never checked in with me at all. I had to contact him and his answers were vague. Then he didn't work there at all. I feel like RSU really dropped the ball in this situation.
29. If I had it all to do over again, would I have chosen to attend RSU and only RSU? My answer would have been NO, because of the bureaucracy and lack of attention to the students in the upper division classes 3000 and 4000 level courses along with many 2000 level courses.
30. Nothing
31. Good questions.
32. I think the psych dept needs to be more academically rigorous or offer advanced placement classes. I realize the faculty is limited in this department. I believe my classes were too easy, though.
33. No interest
34. Cost of attending RSU and fees charged for activities that online student do not use.
- Just because students are not taking in class studies should not give means to a professor to assume they are seeking a degree the 'easy way' (Strategies & Policies per Dr. Carey). Most do their degree plan this way in order to continue full time jobs.
35. Please find professors that want to teach the students the material of financial and managerial accounting to where the students grasp the concepts of the material and can correctly apply them in mores of the field of study.
36. Advisors should know which classes are writing intensive and try to not clump them into the same semester. Last semester seemed like every class but one had several writing assignments, while this semester there was only one writing assignment in one class.
37. 40.

41. Need to allow more freedom to Cameron students and teachers.

I took numerous classes at Rogers State and took strategies and policies with Dr. Carey twice (once online and once in class). I learned so much in that class and can not think him enough. I was very frustrated with him in beginning because he was so harsh and I had a 69.73 in my first time I completed the class, but once I had it in person and was able to ask him questions and see he just wanted us to really grasps these concepts--I couldn't be more thankful!!!

42. Advisement outside a certain major is a joke. Be sure students are advised by someone in the department of their major that knows what they're doing. My random advisement was wasted on classes I didn't know I didn't need. As a student, I trusted that the adviser knew what they were doing... I was wrong! It's so irritating.

43. I wish we had a mock graduation application process that would ensure students stayed on track. Several students i know were unable to graduate due to lacking certain courses. These students had academic advisors who just missed a small detail. Academic advisors need better oversight.

46. I feel like the survey did a good job of asking everything.

47. They did not ask what I thought of the expansion of the athletic programs while RSU was going through budget cuts.

49. N/A

50. I was very excited about my marketing class; however, was very disappointed in my professor. Felt like RSU should give me my money back on that class and apologize to me for wasting my time!!!

51. My advisor and department officers were great, but financial aid and those type offices could use some improvement. They weren't very friendly either and felt like they didn't want to help.

52. n/a

53. I was occasionally disappointed at the quality of teachers that the business department had on staff. It was obvious which professors paid any attention to their semester evaluations and those who did not.

54. The communications professors support the slogan "it's personal". They are very attentive, personable, and available. They are definitely a huge reason why I love RSU the way that I do. :-)

55. Advisors were very nice

56. You should make the degree more difficult. It was too easy to pass.

57. The paramedic program at RSU is amazing! It helped us prepare for our national registry testing and to be the best paramedics we can possibly be. It might however be time to update some of the simulation equipment

58. The department I worked with was a great support to me while I worked and continued my education from a different location. Even when I wasn't sure I could finish I got nothing but encouragement from the team! THANK YOU!

59. Student athlete/ non-student athlete

61. No

62. Would be nice if could enroll online without having to ask permission first. I am a grown (26) man and I am fully capable of doing it myself

63. Keep the HR program. It is necessary with the aging workforce.

64. I wish the Department would be more helpful with helping me enroll in my classes. I always seem to get pushed to someone else and now I will graduate a semester late.

- 73. Before they accept a student into the dept. they should disclose about the heavy writing emphasis and the rigors of the Capstone Project.
- 74. I appreciate everything that the department has done for me in the last four years.
- 75. I love you all!
- 76. I have had really great professors. Just to name a few I liked the most-Dr. Beam, Dr. Dial-Driver, and Dr. Oberreder. They really helped me through when times got tough.

28. If you did not participate in campus enrichment activities, can you share some reasons why?

- 1. I simply did not have the time, between work, school, and family matters, I didn't have the time to put towards them that they would have deserved.
- 2. Don't like the school
 

I did the online tutoring. As an adult, full-time worker with a family, I really don't have much time for anything else
- 3. besides church on Sunday morning. Also, I am a distant learner with the closes campus 30+ miles away - Claremore is roughly 70 miles away, so participation in on campus activities is out of the way for me.
- 4. I work full time job on top of going to school full time. So I normally only have enough time to show up for class and then go back to work.
- 5. Busy family life.
- 6. All of my classes were at the Bartlesville campus or online, so there wasn't very many different options for school involvement. If I had lived on campus I would have gone to sporting events.
- 7. Time constraints. I worked nearly full time and could not attend. I would have liked to attend if I'd had the time.
- 8. I am almost 40 years old and work full-time and have other activities that I am involved in. Most campus activities are full of young kids.
- 9. No time. Worked part-time on campus and had a full course load most semesters.
- 10. I am an adult student with a family and found it difficult to find extra time in my schedule to participate in activities.
- 11. Lack of time
- 12. I was an online student.
 

I am a non-traditional student with a family and other responsibilities. Also, it is difficult to engage in some of the activities that are geared more toward the traditional student. Considerations should be made when planning activities and events
- 13. that would include non-traditional student participation. As a student in my upper 40s I am not comfortable interacting with students who have come out of high school in the resent past. I would however, like to have been able to participate in activities that I did not feel excluded from.
 

I worked a ton during school and never really had a whole lot of time to do anything around the campus. My day would start with school from 8am-11am and then I would have to head straight to work to work from 12pm-9pm and then get up in the morning and do it all over again. When I did have days off, all I wanted to do was sleep because it was just so exhausting.
- 14. I didn't participate as much as I would have liked because I am also working full time.
- 15. Have family, do not live that close to campus

36. I do not live in Claremore.
37. Too busy
38. I was a tennis player in college at a different college and got my first degree and then came here disappointed that RSU did not have a tennis team.. But I am happy the school is growing and trying to work on getting one
39. In the Honors Program, too bust.
40. I participated in the activities my friends were in. I didn't know anyone in theatre, art, etc. so I didn't attend.
41. I am online student and do not live close to campus. I did attend an RSU music event as a requirement for one of my classes.  

The activities offered are not always accessible to all demographics or the different majors, because they feel a bit subjective in their nature and main goals/intent on what they are about and why they were formed are not always clear or beneficial to all students.
42. Too busy.
43. Time constraints.
44. Focused on Nursing school with full time job and a single Mom of two kids. Nobody got time for that.

51. I didn't really ever hear about them and I do not live close to campus.

53. I am over 50 and my life kept getting in the way. Life Happens. I intend to participate next year.
54. I have a family and work long hours each week.
55. I always lived farther away from the claremore campus. At the beginning of college I lived in Chouteau and had a full time job, now I live in Alabama so I never lived close enough to attend as many as I would have liked.
56. Studies, work & family
57. Didn't have time
58. Primarily, I lacked the time to attend events. I also commute and when I did have time, I didn't want to give up hours to wait for an event.
59. I work full time it's hard enough to make it to class and keep up with homework, family, friends, volunteering and everything else.
60. I live off campus in Bixby and I also work so the hour commute there and back 3 times a week was quite a bit for me.
61. I do not live on campus, and often do not hear about them until after the fact.
62. I worked full time for the entire duration of my degree and was a full time student as well.

16. I did accounting for a company for 8 years and enjoyed it; decided it was what I want to do
17. The idea that a degree in business administration would allow me many opportunities for a career.
18. Personal Growth and general interest in the subject matter.
19. Something I enjoy

The Fine Arts Department houses some of the most influential and inspiring faculty members on campus. They really helped me realize my dream of becoming an artist, while at the same time molding me into a proper scholar. Their guidance along with the opportunities and studio space provided by the institution laid the foundation for intense growth and understanding. The rigorous course-work expanded my knowledge of the arts exponentially.

20. Availability of jobs and patient care factor
21. I think that it is a broad degree that you can do many things with in the business world.
22. co-worker explained how easy your on-line program was
23. I originally wanted to learn animation, but it did not end that way.
24. I was pre-med.
25. Online Delivery due to working Full Time

20. Does your original attraction to the degree still hold true?

1. yes
2. I wanted to be a news reporter.
3. Yes
4. Yes

11. yes
12. yes
13. Yes
14. Yes
15. No. I am now more interested in human resources and recruiting.
16. yes
17. Not so much.
18. Yes
19. Sure

Absolutely. I am so thankful for every moment I got to spend at Rogers State University. It is an experience that will

20. remain dear to me for the rest of my life. I hope to someday be able to give back to the school and department that helped me get to where I am now. I will always be internally grateful.
21. The pace of the floor sometimes detracts from adequate patient care
22. Yes
23. Yes
24. No. I do not like animation now. I respect it and the people who do it, but it is not for me. I prefer to work with my hands, so sculpture is more my speed.
25. Absolutely.
26. Yes, I wish there were petroleum degrees offered.

21. If it has changed, how or why has it changed?

1. I still would like to be, but I also love Public Relations and might do something in that field.
2. n/a
3. n/a
4. Just change of interest. Job availability and salary are higher for those with a degree in human resources rather than psychology.
5. n/a
6. As I have found, many "entry level positions" require 1-3 years of experience. Apparently some do not regard college as experience.
7. patient acuity has increased without a corresponding decrease in patient-nurse ratio
8. Not changed.
9. I do not like the repetitive work in animation. I prefer to make 3-D art.
10. The only reason it may change is because careers in this field are limited unless you further your education or go to professional school.

24. If you did not participate in campus enrichment activities, can you share some reasons why?

1. I was an online student
2. I did not participate in many activities as I would have liked because I worked and paid my way through school.
3. I wasn't interested.
4. I have a full time job and did not have extra time.
5. Work schedule wouldn't allow.
6. I had previous issues with allowing extracurricular activities to overtake my time
7. I work a full time job and live 40 miles from campus
8. location
9. Have children and grandchildren plus mother with Alzheimer's no time.
10. Most are located in Claremore. I live in Bartlesville.
11. limited on time
12. Because the Bartlesville campus does not offer the same campus enrichment activities.
13. I live in a different state.
14. I don't live on campus and drive a hour to school each day, so getting here after hours is a little difficult

15. I did not live in the area and family took precedence

I am a middle-aged student and campus enrichment activities do not really appeal to me. I take several hours at a time in

16. pursuing my degree and spend most of my time studying and any free time I get, I want to spend with my family or doing things that appeal to me more.

17. distance

18. I commuted to school 3 1/2 years out of the 5 1/2 years I went and worked at the same time, so doing any of those activities was difficult.

19. off campus student

20. I was an online based student, who works a full time job during the day. I also live in Claremore, so it was a bit of a drive.

25. What do you want to tell the University or Department that this survey did not ask of you?

1. n/a

2. N/a

Having spent 5 years at the university of Oklahoma I believe I have a unique perspective on RSU. I fully enjoyed my time at RSU, and loved the one on one feel, the smaller classes and the understanding afforded by the professors. It was evident to me that my professors not only knew who I was but truly cared about my success in my career and general life goals. I found that my experience at RSU helped me to grow not only intellectually but as a human being and as a member of the community as a whole as well. Knowing what I know now, if I could go back and begin my college experience over again I would choose to go to RSU first, if I had I don't believe it would've taken me 7 years to finish my degree.

4. I love my time at RSU and my department professors made a great impact on my life that I will never forget!

All my classes were taken online. One complaint I have is when I turned in a paper I never received the paper back after grading. There were always comments on where I needed to improve or that I had done a good job but I never got to see exactly what I had done wrong. If there is a way to submit the graded paper back to the student I think that would be helpful. I feel seeing exactly what may have been done wrong helps a student to do it right the next time. I had several papers I made a 99 on. But I never knew why, what did I do wrong. Even papers with lower grades might have a comment such as points taken for spelling or grammar but I never knew exactly what was wrong. Also, when I took Statistics there was no tutor to specifically tutor statistics. The tutor was helpful but even she had to sit down and figure out some of the problems admitting that statistics was not her forte but she was willing to help.

6. the satellite campus tend to be forgotten

7. Need to offer enough classes to be able to complete your entire degree in Bartlesville. It's very inconvenient to have to commute an hour just for 1 or 2 classes.

The overall standard of RSU instructors is not held as high as other comparative universities (Northeastern State University). Unfortunately, the instructors do not seem to be there and are often times not prepared to teach college level classes. Ultimately, I cannot speak for the Claremore campus, but the Bartlesville campus seems to be not taken seriously. Having taken many online classes as well, there is no instruction going on. The classes should be offered free of charge. The instructors are only grading assignments. No "teaching" is occurring.

9. I have been quite satisfied with all aspects of this online education experience.

10. Having Tuesday Thursday class was great because I was able to work. But it would of been better if there was a Monday Wednesday option as well. And no have any classes on Friday

11. The only thing that I cannot express enough is how deeply grateful I am to Rogers State University and the Fine Arts Department for everything.

12. NA

13. I think that the survey adequate.

14. nothing

I had an extremely difficult time talking to any academic advisor. I tried on multiple occasions (emails and phone messages) to gain contact from department heads(Science/Health and Business) and would just receive no response whatsoever. I took advantage of DSST and CLEP testing but received little help determining transfer credit options and was also flat out denied for credit even though the test was approved by the head of my department. I think the way these credits are handled needs to change. A list needs to be generated to help students identify the exact transfer match

15. without having to wait months for an answer. Cheri Smith was very helpful but she had to get approval from each department which took forever. I have alot of patients, but feel that my time and money were taken advantage of. If RSU wants to have an online degree program, you need to have the communication in place to accomodate the design. I just felt out of the loop being an online student. I think an academic advisor, who is a full time staff member and not academic staff is a much better option. I know these issues have been addressed by many other students besides myself. I really hope RSU can work through some of these issues, because I did encounter some great RSU staff and academic staff.
