27. What do you want to tell the University or Department that this survey did not ask of you?

I feel like there were many things that the University and/or my department/adviser failed to inform me of. For example, things like student organizations and their importance, certain classes only being offered during certain semesters. Additionally, in order to succeed in my field I must have an understanding of various computer software, like People Soft and/or SAP. While there were courses that had some SAP involved, some of my classes failed to receive the necessary codes and therefore they failed to touch on SAP, People Soft was never covered. I think the university could do a lot more to ensure that the students receive the necessary training to succeed after graduation. While I am ultimately responsible for my own learning I was never informed of such things as academic reprieve or academic forgiveness and many other various things that could have helped me recover from mistakes in my early academic career. The university could do a lot more to ensure that students are aware of all the opportunities throughout the university.

2. I think you all need to hire more professors. This would give the students here at RSU a bigger class selection. There are some classes that are only offered during specific semesters so this could change that as well. It would also help out our current professors because they have to work really hard to teach all of their classes.

3. I think a class/seminar on "What to do next" would be great. I was not aware I needed a graduate app in before February. I wasn't aware that Grad school sign up was a year before I graduated from RSU. There were many things that I was not aware of that was offered.

4. Reevaluate classes offered online, not all classes should be available online, or if they are, a more detailed description of exactly what the class is.

5. N/A

6. Stop teaching Java and stop giving tenure to bad professors. It's an old useless language. Teach Python or Ruby on Rails.

7. none

8. I think the business department needs to push their students more and teach them more practical knowledge and practices instead of strictly book knowledge that doesn't always transfer neatly to the real world.

9. I want to tell them thank you for everything that they have done to help me.

10. Lee Williams, David Blakely, Cathy Coomer, Dr. Evusa, Dr. Gentry, Tim Yoder, Royal Aills, and Christy Richards are just the first few faculty and staff of RSU that have really been great to have in my academic and collegiate life. Each one of them have added value to my RSU experience, and have been excellent to work with/learn from. Also, before I forget, Andrew Nichols in the communications department has been and is an asset to the communication department.

11. I self-advised for most semesters. However, I have heard numerous complaints from my peers about faculty advisers. More should be done to ensure that faculty is giving accurate information concerning degree requirements.

12. I really think highly of Rogers State. It has allowed me to get a quality education online, while still being able to work full-time.

13. online classes, i take solely online courses

Hands down, Paula Gorden was the best professor I experienced at RSU. The writing I did in her class really pushed me
14. back towards my love of the written word, and her feedback was immensely appreciated at a time when I was going through a rather rough go of things.

15. Despite the number of nontraditional students at RSU, nontraditional transfer students are the red-headed stepchild of the university. There is little to engage students with a life outside campus unless the student actively seeks it out.

I have thoroughly enjoyed my time at RSU. Before attending RSU I spent time at TCC, though TCC had smaller classrooms I had a more personal experience at RSU which really helped me in my studies. I struggled often in college and the teachers motivated me to get through the hard times so I can have a career I enjoy. Bonnie Paul helped with every aspect of college from helping me decide what classes would be best for me to being a listening ear when college was too hard at times. I am very thankful for all of the departments and the help they have provided me during my time at RSU. Thank you RSU for a wonderful two years, now on to Cameron!

16. Every staff member that I encountered was very friendly and willing to help me with anything I needed to help me to graduate.

17. Nothing

I am so glad RSU offered an online degree. The professors are truly amazing. However, I wish the use of video was used more so online students can benefit from seeing the instructor and listening to lecture and how to work problems.
19. This would have been extremely helpful in any classes that were math based like quantitative methods, economics and accounting. I really appreciated Dr. Millikin having podcasts made available for those that were unable to attend study session. This made a world of difference. RSU needs to look at more mechanisms that engage online students.

20. Kimberly Moody was always extremely helpful and very patient. It seemed like she genuinely cared and handled each students situation individually.

I am very impressed with the Biology Department here. The staff has always been encouraging and eager to help me succeed. I love Dr. Kim and Dr. Seo. They are my favorite professors. They made the curriculum more interesting and made sure everyone understood. Dr. Roberts was an amazing chemistry professor. I liked her a lot as well. Dr. Lee is cool too. I wish I would've gotten to know him better. Overall, I love RSU and I am proud to be graduating from here.

21. none.

22. none.

I would like to have had better guidance going into my senior year. I was not made aware that I would need to apply for
24. graduate school in the fall of my senior year to attend the fall after my graduation. Now I will have to wait another year to apply.

While I have had wonderful teachers, there are some classes that should be offered as remote learning experiences, either through a classroom at a remote location or through the RSU-TV program every semester. One such class is
25. Quantitative Methods that I am currently taking. Classes like this served only online make it hard to grasp concepts and be successful.

26. nothing

27. I wish that RSU had the option of a BSN without having to do a bridge program.

28. That the professors in the psychology and community counseling department are excellent professors. They challenge while still being able to support and assess the needs of the students.

29. I was privileged to be a part of the Sigma Beta Delta and received a few scholarships offered at RSU. I totally enjoyed the banquets that I was able to attend on campus.

33. N/A

34. My experience with the Department of History has been excellent. I have gained insight from each of my professors.

I haven't really been happy with this university since I first started here back in Summer 2013. My very first class, My

instructor gave me a hard time about my service in Iraq (Yes, I'm a Veteran) and I didn't appreciate her using her podium as a forum for her liberal beliefs. She also had an annoying habit of addressing us all as "children" whenever she walked in the door and since I was jumping out of airplanes at Fort Bragg, NC when she was probably still in her diapers, that really set my teeth on edge, particularly when I had one of the teenagers sitting in front of me telling me she felt sorry for me whenever she heard that. Ever since then, I've had a chip on my shoulder about my educational experience here at RSU. Secondly, I had already tested out of a lot of college courses while I was still in the military and I told my academic advisor of this when I was being "advised" on which classes to take on my first semester. I still got slotted into American History I my first year and I took it and passed. The subsequent semester, he was about to slot me into American History II and again I advised him that I had already tested out of this also. This time he listened, checked with the department head and determined that I did indeed meet the requirements for this class. The issue was that he said he had tried to notify the administration that he had (inadvertently) advised me about taking a class I did not need. He said he had requested at least tuition reimbursement but nothing ever came of it. Thirdly, I did not understand in the beginning why I was "required" to sign up for a Minor in my degree plan when I enrolled. I didn't know any better and so did what I was told. Now that I know better, I am not happy with this at all because it is cutting into the educational funding I will have left after I finish here and it is also delaying my graduation here by at least a semester. I could have used the funding from that extra semester I am stuck with here at RSU and push it into the tuition I will be faced with when I get to grad school.

35.

36. Nothing

37. Scheduling was a problem, I had trouble with finding the required classes to take for my music minor. I also didn't have many classes that dealt with what I want to do. There were too many unrelated classes.

I feel online classes are for people who are not able to fit a traditional class into their schedules. Most of the online classes I took followed the same format, but there were some that fluctuated, i.e. files opened Sunday, but closed Friday by 5pm; changes made to calendar not consistent with syllabus; and inconsistent grading (two weeks worth of assignments waiting to be graded as third is turned in, only to find out the third assignment was not acceptable...no standard to go from). If no late work is accepted, why is the grading not done in a timely manner? Overall, I am very pleased with the education I received at RSU. Thank you for your time and attention on this matter.

40. Nothing at this time.

41. I cannot think of anything that hasn't already been asked.

I loved school till I came to RSU. The teachers I had were nothing like the teachers that I had at NSU and OSU and TCC. I learned so much more from those schools. I was not told when I transferred to RSU from NSU that I would have to retake a class that I had already had from NSU. I received 3 emails but at that time I rarely checked my emails because I had many things going on during Sept, Oct, and Nov. No one bothered to call me or mail me a letter about retaking a class. I even did my degree audit in December and no one said a word about it. So, I had to learn 2 weeks before graduation that I had to take another class. That is only a couple of the issues I had. Very dissatisfied with RSU.

42.

28. If you did not participate in campus enrichment activities, can you share some reasons why?

1. I attend many athletic events, but I work full time and have a family so music and enrichment activities are not something I can easily plan time for

Mostly due to a lack of the university and/faculty making students aware of what students can participate in. Also, I feel as if students who are referred to as non-traditional or students who do not live on campus fail to receive a lot of the information about what is available to them.

2.

3. To busy with nursing school

4. I work full time and did not have time to attend any extra activities

5. I was not informed about these activities.

6. Time issues.

7. I have a family that I tend to. I don't have time for much outside of classwork.

8. U live an hour away from campus.

9. I did not participate in campus enrichment activities because I live 50 miles away from Claremore.
10. Distance
11. Super busy with nursing
12. Distance learner. Full time working adult.
13. commute, busy with personal stuff
14. Didn't have time and lived too far from campus
15. I participated in a lot of campus enrichment activities. I encourage everyone to.
16. I commuted to class and usually had to go straight to work after class
17. Time Constraints
18. I work a lot of hours. I would have loved to have participated in some university organizations.
19. I take online classes and work full time so it is difficult for me to participate in activities
20. Basically, I live in Bartlesville, work full time, and have a small child in activities.
21. Did not feel welcome/felt out of place
22. I work full time and am enrolled as a half-time student. I am married so the majority of my time not spent at work or school, I spend with my family.
I did not live on campus. When I meet people at RSU they are in my classes and we only communicate about our
23. classes. I always knew when the concerts and games were though because of all of the emails that are sent out constantly.
24. I have to drive an hour away from school every day and had two jobs while taking full time classes. There was no time for extra activities.
25. work
26. Appeared to be dull
27. I live in Oklahoma City.
28. Not advertised as much. I wasn't sure when everything was, or I just got busy with work.
29. Did not have the time or the interest
30. I was not a traditional student.
31. no.
32. no.
33. I was located in Bartlesville. I did participate in the few events we held.
34. I participated in some but I would have done more if I had lived on campus or close to campus. I am a non-traditional student that commuted to both Bartlesville and Claremore campuses.
35. I do not live in Claremore. I have kids and I work 2 jobs. Time is an issue.
36. I live off campus and have a family.
37. I do not live in Claremore and I work full-time during the week. There are not any campus activities that are shared for online students who do not live near the main campus.
38. I'm married, with three kids, my free time is spent with them and we don't like sports.
39. I'm an adult student who lives off campus and has obligations and responsibilities other than school.
I would like to explain why I did not attend any of the above activities. I live 2 1/2 hours away from the closest RSU
40. campus (Claremore) so that is why I have been solely an online student. If I had lived closer, I would have attended and actively participated in most all of the activities mentioned.

41. No time.
42. I was a student athlete at RSU and usually had practice and games at music and theatre events
43. Live too far away
44. work full time, family, and school = no time
45. I am an online student, with a full time job. I never took the time to go to RSU events.
46. As I was working towards my goals here a RSU, I continued working full-time.
47. A number of the activities conflicted with class schedules
I am too old to go out and engage in bake sales or car washes and I could really care less about sorority/fraternity organizations. I came here to get an education and after 24 years of military service, frequently under hazardous conditions overseas, I have more than fulfilled any "community service" requirement this university thinks I need and have more than excelled already at any social or personal growth deemed necessary for my personal development. I am a survivor in the rawest definition of the word and the only thing I need or want from RSU is my diploma at the end of the year and then I will be moving on.
48. There was too many conflicting scheduling.
49. No reason just didn't have time.
50. As a working adult student who has a family to care for, most of the activities did not fit in to my schedules. There were not too many enrichment activities at the Bartlesville campus.
51. Full time job/ other obligations/ living off campus.
52. busy working wife, mother and student did not allow time for additional activities
53. Time constraints with work and school.
54. most events that I wanted to attend were during the times I was in classes, making it impossible to attend. Other activities I was not interested in or did not have the time to participate.
55. I wasn't interested in any of them really. I like outdoor activities (caving, hiking and collecting/capturing - none of these were in the campus enrichment activities listed above.
56. not interested
57. not interested
