1. Name (Optional)

2. Student ID (Optional)

3. What is your cumulative GPA?

1. 3.5
2. 3.50

8. What are your post graduation employment plans?

I would like to take this degree and put it to good use. I would like to become a business entrepreneur and be able to

1. hopefully fulfill my career goals of opening up my own business. I see that this business plan is a great need in my community and I'm hoping to be able to fulfill those needs within the next few years.
2. I plan on becoming a business entrepreneur and opening my own business in the near future in the services sector.

9. What originally attracted you to your degree program?

1. It was only 36 credits away from getting an MBA degree, I thought that that was a great way of showing how dedicated I am to making sure that I reach this education goal.
2. I wanted to continue to further my education. I've already completed an accelerated BA program, so therefore getting my MBA would be much easier. I've reached my life time educational goal that I've set for myself in my adult years of life.

10. Does your original attraction to the degree still hold true?

1. Yes, I'm glad that I went through with my plan to get an MBA degree. I believe it will assist me in having a higher probability of being a successful entrepreneur.
2. Yes, to a point. I would recommend that RSU continue to build on the MBA program so that I would accelerate the program even further. This will allow the MBA students to finish the program a lot faster if they choose to do so.

11. If it has changed, how or why has it changed?

The program was changed during my first year on the program, therefore I wasn't given the same opportunity to graduate

1. sooner like the students that came after me. This was not fair to me or other students in the same shoes as myself. I asked to see if this was possible even before I started the program, and was told no.

14. What do you want to tell the University or Department that this survey did not ask of you?

While I appreciated all of the hard work and dedication from the majority of my professors who all taught their courses with enthusiasm and professionalism, there were other courses where the students were left to self teach themselves the

1. subject. Although I'm not an Accounting major, I didn't appreciate the fact that I had to self teach myself the subject. I was really looking forward to learning from a professor who's an expert in that subject matter. This was very disappointing to me, to say the very least.

I would be the first of my nationality to graduate in this program. Hopefully I am not the last. I've accomplished a lot as far as educational goals. Diversity is important to me. I hope that RSU will continue to diversify their student body and recruit

2. from a diverse pool of students and applicants. Thank you for the opportunity to learn from RSU's well educated

professors. It has been an honor. I have post graduate business plans. I hope to have the chance to follow through and be a successful business owner so that I could give back to RSU in the near future.
